RESOLUTION 2026-10
[FY 2027 ASSESSMENT RESOLUTION]

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE STONEBRIER COMMUNITY DEVELOPMENT DISTRICT PROVIDING FOR FUNDING FOR THE FY 2027 ADOPTED BUDGET(S); PROVIDING FOR THE COLLECTION AND ENFORCEMENT OF SPECIAL ASSESSMENTS, INCLUDING BUT NOT LIMITED TO PENALTIES AND INTEREST THEREON; CERTIFYING AN ASSESSMENT ROLL; PROVIDING FOR AMENDMENTS TO THE ASSESSMENT ROLL; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Stonebrier Community Development District ("**District**") is a local unit of special-purpose government established pursuant to Chapter 190, *Florida Statutes*, for the purpose of providing, operating and maintaining infrastructure improvements, facilities and services to the lands within the District, located in Hillsborough County, Florida ("**County**"); and

WHEREAS, the District has constructed or acquired various infrastructure improvements and provides certain services in accordance with the District's adopted capital improvement plan and Chapter 190, *Florida Statutes*; and

WHEREAS, for the fiscal year beginning October 1, 2026, and ending September 30, 2027 ("**FY 2027**"), the Board of Supervisors ("**Board**") of the District has determined to undertake various operations and maintenance and other activities described in the District's budget ("**Adopted Budget**"), attached hereto as **Exhibit A**; and

WHEREAS, pursuant to Chapter 190, *Florida Statutes*, the District may fund the Adopted Budget through the levy and imposition of special assessments on benefitted lands within the District and, regardless of the imposition method utilized by the District, under Florida law the District may collect such assessments by direct bill, tax roll, or in accordance with other collection measures provided by law; and

WHEREAS, in order to fund the District's Adopted Budget, the District's Board now desires to adopt this Resolution setting forth the means by which the District intends to fund its Adopted Budget.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE STONEBRIER COMMUNITY DEVELOPMENT DISTRICT:

1. **FUNDING.** The District's Board hereby authorizes the funding mechanisms for the Adopted Budget as provided further herein and as indicated in the Adopted Budget attached hereto as **Exhibit A** and the assessment roll attached hereto as **Exhibit B ("Assessment Roll")**.

2. **OPERATIONS AND MAINTENANCE ASSESSMENTS.**

- a. **Benefit Findings.** The provision of the services, facilities, and operations as described in **Exhibit A** confers a special and peculiar benefit to the lands within the District, which benefit exceeds or equals the cost of the assessments. The allocation of the assessments to the specially benefitted lands is shown in **Exhibit A** and **Exhibit B** and is hereby found to be fair and reasonable.

b. **O&M Assessment Imposition.** Pursuant to Chapter 190, *Florida Statutes*, a special assessment for operations and maintenance ("**O&M Assessment(s)**") is hereby levied and imposed on benefitted lands within the District and in accordance with **Exhibit A** and **Exhibit B**. The lien of the O&M Assessments imposed and levied by this Resolution shall be effective upon passage of this Resolution.

c. **Maximum Rate.** Pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the "maximum rate" authorized by law for operation and maintenance assessments.

3. **DEBT SERVICE SPECIAL ASSESSMENTS.** The District's Board hereby certifies for collection the FY 2027 installment of the District's previously levied debt service special assessments ("**Debt Assessments**," and together with the O&M Assessments, the "**Assessments**") in accordance with this Resolution and as further set forth in **Exhibit A** and **Exhibit B**, and hereby directs District staff to affect the collection of the same.

4. **COLLECTION AND ENFORCEMENT; PENALTIES; INTEREST.** Pursuant to Chapter 190, *Florida Statutes*, the District is authorized to collect and enforce the Assessments as set forth below.

a. **Tax Roll Assessments.** To the extent indicated in **Exhibit A** and **Exhibit B**, those certain O&M Assessments (if any) and/or Debt Assessments (if any) imposed on the "**Tax Roll Property**" identified in **Exhibit B** shall be collected by the County Tax Collector at the same time and in the same manner as County property taxes in accordance with Chapter 197, *Florida Statutes* ("**Uniform Method**"). That portion of the Assessment Roll which includes the Tax Roll Property is hereby certified to the County Tax Collector and shall be collected by the County Tax Collector in the same manner and time as County property taxes. The District's Board finds and determines that such collection method is an efficient method of collection for the Tax Roll Property.

b. **Future Collection Methods.** The District's decision to collect Assessments by any particular method – e.g., on the tax roll or by direct bill – does not mean that such method will be used to collect special assessments in future years, and the District reserves the right in its sole discretion to select collection methods in any given year, regardless of past practices.

5. **ASSESSMENT ROLL; AMENDMENTS.** The Assessment Roll, attached hereto as **Exhibit B**, is hereby certified for collection. The Assessment Roll shall be collected pursuant to the collection methods provided above. The proceeds therefrom shall be paid to the District. The District Manager shall keep apprised of all updates made to the County property roll by the Property Appraiser after the date of this Resolution and shall amend the Assessment Roll in accordance with any such updates, for such time as authorized by Florida law, to the County property roll.

6. **SEVERABILITY.** The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof.

7. **EFFECTIVE DATE.** This Resolution shall take effect upon the passage and adoption of this Resolution by the Board.

PASSED AND ADOPTED this 13th day of August 2026.

MANAGEMENT SUMMARY

Unprecedented weather is going to make summer interesting this year. So far, we've seen multiple heat domes, continued drought, and an early-season gulf tropical storm. We're preparing technicians for anything at this point. Rain has become more frequent, but not enough to bring us out of the drought. Still, any added nutrients from runoff can cause rapid algal blooms in ponds as growing conditions are prime. Vegetation will continue to thrive through the season and may appear in areas we've not seen it in for a few months. Rising water levels will at least help quell the persistent terrestrial growth on exposed banks and beds. We have altered every technician's schedule to give them more time at their properties and better combat current growth.

Fair, consistent conditions in all ponds today. Nothing is sticking out as an immediate issue right now, which means grasses are under control in the height of summer. While conditions are like this, technicians are addressing the known issues of lilies and terrestrials. I like the idea of a rotation mentioned earlier; this will help prevent tussocks while staying ahead of growth. It's just going to take some time but already yielding good results.

Algae is still suspiciously quiet. Other communities have started the seasonal turn and are getting rapid blooms. I'll remain hopeful that this trend stays here but techs are ready if it doesn't.

RECOMMENDATIONS

Continue to treat ponds for algae, administer follow-ups to ponds experiencing extended decay times.

Administer treatments to any nuisance grasses growing along exposed shorelines and within beneficial plants.

Continue to apply treatment to overgrown littoral areas.

Avoid over treating ponds, to prevent fish kills or toxic blooms.

Stay alert for debris items that find their way to the pond's shore.

Management Summary

The sites with the heaviest growth are on the ends of the inspected area (3301, 3303, 3319, 3323). As noted, only two of these are obstructing the view of the lake and the others just conservation. Otherwise, no invasives are obstructing the view of the lake aside from grasses in the wetland. A few Peppertree saplings are present in these areas; these can easily be cut or pulled. There is a large, well-defined patch of grasses spanning multiple sites that have been left to grow. This looks like the doings of maintenance crews and is worth looking into, though I suspect they are following property lines as outlined by maintenance maps. All areas with removal recommended cover 10-15 feet into the buffer and only include invasive vegetation. Removing grasses further in is not recommended as there is a mix of native and invasive. These typically only reach about three feet tall anyway. Other invasives are present, mainly Spanish Moss. This is a different scope and would require equipment to remove which is not permitted per SWFWMD.

Native trees and shrubs cannot be removed even if they obstruct the view.

Recommendations / Action Items

- Remove Brazilian Peppertrees and Chinese Tallow; treat stumps with pre-emergent herbicides.
- Remove vines and cut above the root; treat with pre-emergent herbicides.
- Treat Caesarweed with non-selective herbicides.

Memorandum

To: Board of Supervisors

From: Mark Vega

Date: August 13, 2026

RE: HB7013 – Special Districts Performance Measures and Standards

To enhance accountability and transparency, new regulations were established for all special districts, by the Florida Legislature, during its 2024 legislative session. Starting on October 1, 2024, or by the end of the first full fiscal year after its creation (whichever comes later), each special district must establish goals and objectives for each program and activity, as well as develop performance measures and standards to assess the achievement of these goals and objectives. Additionally, by December 1 each year (initial report due on December 1, 2026), each special district is required to publish an annual report on its website, detailing the goals and objectives achieved, the performance measures and standards used, and any goals or objectives that were not achieved.

District Management has identified the following key categories to focus on for Fiscal Year 2027 and develop statutorily compliant goals for each:

- Community Communication and Engagement
- Infrastructure and Facilities Maintenance
- Financial Transparency and Accountability

Additionally, special districts must provide an annual reporting form to share with the public that reflects whether the goals and objectives were met for the year. District Management has streamlined these requirements into a single document that meets both the statutory requirements for goal/objective setting and annual reporting.

The proposed goals/objectives and the annual reporting form are attached as exhibit A to this memo. District Management recommends that the Board of Supervisors adopt these goals and objectives to maintain compliance with HB7013 and further enhance its commitment to the accountability and transparency of the District.

E. It is understood and agreed that this Agreement is not a construction contract as that term is referenced in Section 725.06, *Florida Statutes*, and that said statutory provision does not govern, restrict or control this Agreement.

7. WARRANTY AND COVENANT. The Contractor warrants to the District that all materials furnished under this Agreement shall be new, and that all services and materials shall be

of good quality, free from faults and defects. The Contractor hereby warrants any materials and Services for a period of one (1) year after acceptance by the District or longer as required under Florida law. With respect to any and all plant material provided pursuant to this Agreement, all plant material shall be guaranteed to be in a satisfactory growing condition and to live for a period of one (1) year from planting except for annuals, which will be replaced seasonally. All plants that fail to survive under the guarantee shall be replaced as they fail with the same type and size as originally specified. Contractor further warrants to the District those warranties which Contractor otherwise warrants to others and the duration of such warranties is as provided by Florida law unless longer guarantees or warranties are provided for elsewhere in the Agreement (in which case the longer periods of time shall prevail). Contractor shall replace or repair warranted items to the District's satisfaction and in the District's discretion. Neither final acceptance of the Services, nor monthly or final payment therefore, nor any provision of the Agreement shall relieve Contractor of responsibility for defective or deficient materials or Services. If any of the Services or materials are found to be defective, deficient or not in accordance with the Agreement, Contractor shall correct remove and replace it promptly after receipt of a written notice from the District and correct and pay for any other damage resulting therefrom to District property or the property of landowners within the District. Contractor hereby certifies it is receiving the property in its as-is condition and has thoroughly inspected the property and addressed any present deficiencies, if any, with the District. Contractor shall be responsible for maintaining and warranting all plant material maintained by Contractor as of the first date of the Services.

Contractor hereby covenants to the District that it shall perform the Services: (i) using its best skill and judgment and in accordance with generally accepted professional standards and (ii) in compliance with all applicable federal, state, county, municipal, building and zoning, land use, environmental, public safety, non-discrimination and disability accessibility laws, codes, ordinances, rules and regulations, including, without limitation, all professional registration (both corporate and individual) for all required basic disciplines that it shall perform. Contractor hereby covenants to the District that any work product of the Contractor shall not call for the use nor infringe any patent, trademark, services mark, copyright or other proprietary interest claimed or held by any person or business entity absent prior written consent from the District.

8. COMPLIANCE WITH GOVERNMENTAL REGULATION. The Contractor shall keep, observe, and perform all requirements of applicable local, State and Federal laws, rules, regulations, or ordinances. If the Contractor fails to notify the District in writing within five (5) days of the receipt of any notice, order, required to comply notice, or a report of a violation or an alleged violation, made by any local, State, or Federal governmental body or agency or subdivision thereof with respect to the services being rendered under this Agreement or any action of the Contractor or any of its agents, servants, employees, or materialmen, or with respect to terms, wages, hours, conditions of employment, safety appliances, or any other requirements applicable to provision of services, or fails to comply with any requirement of such agency within five (5) days after receipt of any such notice, order, request to comply notice, or report of a violation or an alleged violation, the District may terminate this Agreement for cause as provided in Section 14 and such termination is to be effective immediately upon the giving of notice of termination.

9. LIENS AND CLAIMS. The Contractor shall promptly and properly pay for all labor employed, materials purchased, and equipment hired by it to perform under this Agreement. The Contractor shall keep the District's property free from any materialmen's or mechanic's liens and claims or notices with respect to such liens and claims, which arise by reason of the Contractor's

performance under this Agreement, and the Contractor shall immediately discharge any such claim or lien. In the event that the Contractor does not pay or satisfy such claim or lien within three (3) business days after the filing of notice thereof, the District, in addition to any and all other remedies available under this Agreement, may terminate this Agreement for cause as provided in Section 14 and such termination is to be effective immediately upon the giving notice of termination.

10. DEFAULT AND PROTECTION AGAINST THIRD PARTY INTERFERENCE. A default by either party under this Agreement shall entitle the other to all remedies available at law or in equity, which may include, but not be limited to, the right of damages, injunctive relief, and/or specific performance. The District shall be solely responsible for enforcing its rights under this Agreement against any interfering third party. Nothing contained in this Agreement shall limit or impair the District's right to protect its rights from interference by a third party to this Agreement.

11. CUSTOM AND USAGE. It is hereby agreed, any law, custom, or usage to the contrary notwithstanding, that the District shall have the right at all times to enforce the conditions and agreements contained in this Agreement in strict accordance with the terms of this Agreement, notwithstanding any conduct or custom on the part of the District in refraining from so doing; and further, that the failure of the District at any time or times to strictly enforce its rights under this Agreement shall not be construed as having created a custom in any way or manner contrary to the specific conditions and agreements of this Agreement, or as having in any way modified or waived the same.

The District may terminate this Agreement immediately with cause by providing written notice of termination to the Contractor. The District may terminate this Agreement without cause upon thirty (30) days written notice of termination. Upon any termination of this Agreement, the Contractor shall be entitled to payment for all work and/or services rendered up until the effective termination of this Agreement, subject to whatever claims or off-sets the District may have against the Contractor.

14. PERMITS AND LICENSES. All permits and licenses required by any governmental agency directly for the District shall be obtained and paid for by the District. All other permits or licenses necessary for the contractor to perform under this Agreement shall be obtained and paid for by the Contractor.

Neither the District nor the Contractor may assign this Agreement without the prior written approval of the other, provided, however, that consent shall not be required to assign this Agreement to any company which controls, is controlled by, or is under common control with Contractor or in connection with assignment to an affiliate or pursuant to a merger, sale of all or substantially all of its assets or equity securities, consolidation, change of control or corporate reorganization. Any purported assignment without such prior written approval shall be void.

16. INDEPENDENT CONTRACTOR STATUS. In all matters relating to this Agreement, the Contractor shall be acting as an independent contractor. Neither the Contractor nor employees of the Contractor, if there are any, are employees of the District under the meaning or application of any Federal or State Unemployment or Insurance Laws or Old Age Laws or otherwise. The Contractor agrees to assume all liabilities or obligations imposed by any one or more of such laws with respect to employees of the Contractor, if there are any, in the performance of this Agreement. The Contractor shall not have any authority to assume or create any obligation, express or implied, on behalf of the District and the Contractor shall have no authority to represent the District as an agent, employee, or in any other capacity, unless otherwise set forth in this Agreement.

17. HEADINGS FOR CONVENIENCE ONLY. The descriptive headings in this Agreement are for convenience only and shall neither control nor affect the meaning or construction of any of the provisions of this Agreement.

26. SEVERABILITY. The invalidity or unenforceability of any one or more provisions of this Agreement shall not affect the validity or enforceability of the remaining portions of this Agreement, or any part of this Agreement not held to be invalid or unenforceable.

27. ARM'S LENGTH TRANSACTION. This Agreement has been negotiated fully between the District and the Contractor as an arm's length transaction. The District and the Contractor participated fully in the preparation of this Agreement with the assistance of their respective counsel. 28. COUNTERPARTS. This Agreement may be executed in any number of counterparts, each of which when executed and delivered shall be an original; however, all such counterparts together shall constitute but one and the same instrument.

29. E-VERIFY. The Contractor agrees that it shall bear the responsibility for verifying the employment status of all persons it employs or subcontracts in the performance of this Agreement and agrees to otherwise comply with all applicable federal and Florida law, including but not limited to the Immigration Reform and Control Act of 1986, as amended, and Section 448.095, Florida Statutes. By entering into this Agreement, the Contractor represents that no public employer has terminated a contract with the Contractor under Section 448.095(2)(c), *Florida Statutes*, within the year immediately preceding the date of this Agreement.

EXHIBIT B: SCOPE OF SERVICES

SCOPE OF SERVICES

PART 1

GENERAL LANDSCAPE MAINTENANCE

1) MOWING – All grass areas will be mowed on the following schedule:

MARCH 1 – NOVEMBER 1 – Once a week

NOVEMBER 1 – MARCH 1 – Once every two weeks

This schedule estimates that there will be between 41 – 45 cuts annually based on standard growing periods in Florida, however, requires a minimum of 52 services (weekly) to perform those duties, other than mowing, that cannot remain unattended for two weeks. (i.e., weed control, selective mowing, debris clearing, and general detailing of property, etc.) Notwithstanding the above, at no time will the grass be allowed to grow beyond a maximum height of five (5) inches. Each mowing should leave the St. Augustine & Bahia grass at a height of three and one half (3 1/2) to four (4) inches and Celebration Bermuda at a height of three quarter (3/4) to one and one quarter (1 1/4) inches. Do not remove more than 1/3 of the height of the leaf blade at any one mowing. All blades shall be kept sharp at all times to provide a high-quality cut and to minimize disease. The DISTRICT requires mowers to be equipped with a mulching type deck. Rotary Mowers are preferred for heights above one (1) inch and Reel type mowers for heights below one (1) inch. Clippings may be left on the lawn as long as no readily visible clumps remain on the grass after mowing. Otherwise, large clumps of clippings **MUST** either be collected and removed by the CONTRACTOR **OR** be **immediately** re-distributed across the lawn. This is to re-introduce nutrients in the clippings back into the soil system. In case of fungal disease outbreaks, the clippings will be collected until the disease is under control. The CONTRACTOR shall restore any noticeable damage caused by the CONTRACTOR'S mowing equipment within twenty-four hours from the time the damage is caused at his sole cost and expense. Contractor shall be responsible for training all its personnel in the technical aspects of Stonebrier CDD's Landscape Maintenance Program and general horticultural practices. This training will also include wetland species identification as it relates to lake banks & wetland areas. The Contractor shall be held responsible for all damage to wetlands, littoral shelves, mitigation areas and uplands due to mowing/fertilizing/herbicide applications, etc. Weekend work is permitted when necessary upon prior approval. Any lawn that dies or becomes weak or unsightly (including heavy weed infestation, excessive insect or disease damage, etc.) shall be replaced at the sole cost of the Contractor. This excludes damage from water restrictions (only if automatic irrigation is completely and legally banned by the State and/or local authorities). At all times, Contractor must maintain the perimeters of all natural areas so the growth does not overtake the turf in open lawns, pond banks, tracts between the edges of the wetland and sidewalks, trails or roadways. Contractor is expected to regularly cut this material back and dispose of off-site on an as-needed basis. Contractors will be expected to maintain these tree lines in this trimmed condition throughout the duration of the contract.

1A) POND MOWING – Each mowing shall leave the grass at a height of four (4) to four and one half (4½) inches. Pond banks will be mowed and/or trimmed to water's edge or sod line (if water is not present). Line trimming at water's edge and line trimming of all drainage structures

shall occur each and every time the pond is mowed. Careful attention must be paid to mower height on pond banks so as not to scalp at the crest of the lake bank and increase the chances for pond bank erosion. Also, when line trimming to water's edge, Contractor shall be extremely careful not to scalp at the water's edge also increasing chances of pond bank erosion. Line trimming height shall be the same as mowing height (if not slightly higher). Contractor shall be careful to keep trimmings from entering water. Excessive clippings shall be hand removed. As mentioned earlier, The DISTRICT requires mowers to be equipped with a mulching-type deck with mulch flap in the closed position, specifically around pond banks. If circumstances do not allow this, mowers must blow all clippings away from pond banks, but not into any residential lawns. It is understood that trash of any kind and other debris within arm's reach of water's edge shall be removed & disposed of by Contractor during every normal service event.

2) EDGING AND TRIMMING – All hard-edged areas (curbs, sidewalks, bike paths, nature trails, etc.) shall be edged and/or line trimmed every week and soft-edged areas (tree rings, shrub and groundcover bed lines) shall be edged a minimum of every other week. All edging shall be performed to the sole satisfaction of the DISTRICT. **Chemical edging shall not be permitted anywhere on property.**

AT NO TIME SHALL LAWN BE ALLOWED TO GROW IN AN UNSIGHTLY MANNER. SHOULD THIS OCCUR, CONTRACTOR AGREES TO CORRECT WITHIN TWENTY-FOUR HOURS OF NOTICE BY DISTRICT. CONTRACTOR SHALL COMPLETE ALL LAWN MAINTENANCE ACTIVITIES (i.e., MOWING, EDGING, LINE TRIMMING, BLOWING OFF SIDEWALKS, BOARDWALKS, DRIVEWAYS, CURB & GUTTERS, ETC.) IN RELATIVELY SMALL, MANAGEABLE SECTIONS. THE ENTIRE PROPERTY (OR DESIGNATED SECTIONS) MUST BE MOWED, EDGED, LINE-TRIMMED AND ALL DEBRIS BLOWN OFF ALL PAVEMENT IN THE SAME DAY. CONTRACTOR IS NOT TO LEAVE GRASS CLIPPINGS, TRIMMED WEEDS, TURF, DIRT OR DEBRIS ON ANY SURFACES FOR MORE THAN TWO HOURS. IF A MOWING EVENT IS MISSED, EVERY EFFORT SHALL BE MADE TO PERFORM THE MOWING SERVICE THE SAME WEEK (INCLUDING SATURDAYS WITH PRIOR APPROVAL). IF THIS IS NOT POSSIBLE, THE CONTRACTOR SHALL PROVIDE THE DISTRICT A CREDIT FOR FUTURE SERVICES OR ADD A MOWING EVENT TO BE PROVIDED AT A LATER DATE. THE DISTRICT SHALL DETERMINE WHETHER THE CREDIT OR EXTRA MOWING SHALL BE USED.

3) TREE AND SHRUB CARE – All deciduous trees shall be pruned when dormant to ensure proper uniform growth. All evergreen trees shall be pruned in the early summer and fall to ensure proper growth and proper head shape. Sucker growth at the base of the trees shall be removed by hand continuously throughout the year. Aesthetic pruning shall consist of the removal of dead

and/or broken branches as often as necessary to have trees appear neat at all times. Branches will be pruned just outside the branch collar. Contractor is responsible for the removal of all branches and limbs up to a 4" diameter and up to a 15' height to keep them from encroaching onto buildings (including roofs), signage structures, play structures, fences & walls, as well as pruned to prevent streetlights and traffic signage from being blocked. Additionally, trees shall be pruned over sidewalks, nature trails, parking lots and roadways so as not to interfere with pedestrians or cars. (This is to include maintaining at all times a minimum of ten to fifteen (10-15) feet of clearance under all limbs over sidewalks/turf areas (10') in and outside of ROW's and roads (15'), respectively. This may depend on location and species of tree and shall vary according to DOT specs. All moss hanging from trees (including ball moss) shall be removed up to a height of 15' from all CDD-maintained trees on an as-needed basis. During the dormant season, ALL Crape Myrtles shall have ALL mosses removed up to a height of 15'. During this time, all Crape Myrtles less than 15' in height must be pruned. This includes the removal of all seed pods. Crape Myrtles are not to be "hat raked" at any time. Pencil to thumb pruning is the preferred method of Crape Myrtle pruning and shall be performed after threat of frost has passed but before new growth flushes. Any initial removal of all Spanish and Ball Mosses shall be included in the proposals and completed within ninety (90) days of contract commencement.

All shrubs will be pruned as necessary to retain an attractive shape and fullness, removing broken or dead limbs as necessary to provide a neat and clean appearance. Shrubs shall not be clipped into balled or boxed forms unless such forms are required by design. Shrubs shall be pruned in accordance with the intended function of the plant in its present location. Flowering shrubs shall be pruned immediately after the blossoms have cured with top pruning restricted to shaping the terminal growth. All pruning shall be done with horticultural skill and knowledge to maintain an overall acceptable appearance consistent with the current aesthetics of Stonebrier. The Contractor agrees that pruning is an art that must be done under the supervision of a highly trained foreman and shall make provisions for such supervision. Individual plants sheared into rounded balls or unnatural shapes will not be allowed. In fact, shearing should be incorporated on a limited basis to not spread fungus and other disease. Selective pruning is the preferred method of shaping. Contractor shall sterilize all pruning equipment prior to pruning the next shrub grouping; particularly when fungal diseases are known to be present. All clippings and debris from pruning will be carted away at the time pruning takes place and disposed of off-site. It is of utmost importance that all plant material within clear site lines and visibility triangles at roadway intersections and medians is maintained at or below the required heights. It is the Contractor's responsibility to bring to the attention of the District all areas that are not in compliance. If pruning will bring the area into compliance, then the Contractor, after conferring with District's representative, will proceed with the pruning activity. However, if pruning will NOT bring the area into compliance, perhaps due to permanent existing grades, another solution will need to be proposed and executed.

Palms: **All palms (regardless of height) shall receive pruning as often as necessary to appear neat and clean at all times.** This includes only the removal of brown and/or broken fronds and inflorescence. Removal of green or even yellowing fronds is unnecessary and pruning of palms shall never raise the canopy above the three o'clock – nine o'clock horizontal. Contractor will not be asked to trim a singular palm on the property but will be required to trim palms once a significant quantity of palms have a petticoat of dead fronds. Fronds should be removed only once they turn

brown or become broken or are disrupting flow of pedestrian/vehicular traffic or are hanging on architectural structures. Flower/Fruit pods shall be removed prior to development. Tarpaulins shall be used in areas where date palms and other palm fruits may stain sidewalks & pavement including, but not limited to, pool decks. Contractor shall be responsible for the removal of all palm fruit stains. Contractor shall utilize sterilized pruning equipment (preferably having a minimum of two sets of pruning tools to allow sterilization of previously used equipment between palms). Contractor shall pay careful attention when pruning Medjool, Sylvester, Reclinata, Canary & Washington Palms. Palms on pool decks (and all other plant material, in general, on pool decks) shall be inspected during every maintenance visit and pruned as necessary in order to keep this area safe, neat and attractive at ALL times.

4) WEEDS AND GRASSES – All shrub & groundcover beds as well as all turf areas shall be kept reasonably free of weeds and grasses and be neatly cultivated and maintained in an orderly fashion at all times. This may be accomplished by carefully applied applications of pre- & post-emergent herbicides as part of fertilizer mixtures and post-emergent herbicide spot treatments on an as-needed basis. Condition of turf is to be determined by the DISTRICT at its sole discretion. All shrub and bed areas shall be maintained each mowing service by removing all weeds, trash and other undesirable material and debris (leaf and other) to keep the area neat and tidy. All ornamental beds, hedge areas and tree rings shall be kept weed (and sod) free throughout the year. This is to be accomplished through hand pulling or the careful application of a post-emergent herbicide. **AT NO TIME SHALL POST-EMERGENT HERBICIDES BE PERMITTED WHEN WEEDS HAVE ESTABLISHED THEMSELVES AS TO DOMINATE PLANTING BEDS. HAND PULLING MUST BE PERFORMED.**

NON-SELECTIVE, POST-EMERGENT HERBICIDES SHALL NEVER BE USED TO CONTROL WEED/SOD GROWTH AROUND STRUCTURES OF ANY TYPE (I.E. STREET SIGNS, UTILITY BOXES, STREET LIGHTS, PAVEMENT, TREE RINGS, FENCES, ETC.) THE FIRST OFFENSE WILL RESULT IN A VERBAL WARNING; THE SECOND OFFENSE WILL RESULT IN A SECOND VERBAL WARNING AND THE BOARD OF SUPERVISORS FOR THE DISTRICT WILL BE NOTIFIED; THE THIRD OFFENSE MAY TERMINATE THIS CONTRACT FOR CAUSE AT THE DISTRICT'S DISCRETION.

The CONTRACTOR shall be responsible for the replacement of turf and ornamental plants killed or damaged by herbicide application. All fence lines shall be kept clear of landscape shrubs growing through, weeds, undesirable vines and overhanging limbs.

5) MAINTENANCE OF PAVED AREAS – All paved areas, including curb and gutter along roadways shall be kept weed & debris free. This may be accomplished by mechanical means (line trimmer) or by applications of post/pre-emergent herbicides. Weeds greater than two (2) inches in height or width shall be pulled from paved areas, not sprayed. No sprays with dyes may be used on any paved areas. Contractor is not to use non-selective herbicides to eradicate weeds in curb line or sidewalk expansion joints where the chemical can travel back into the turf causing regularly spaced dead patches behind the curbs and sidewalks.

6) **CLEAN UP** – At no time will CONTRACTOR leave the premises after completion of any work in any type of disarray. All clippings, trimmings, debris, dirt or any other unsightly material shall be removed promptly upon completion of work. CONTRACTOR shall use his own waste disposal methods, never the property dumpsters. Grass clippings shall be blown off sidewalks, streets and curbs within a relatively short time frame and are not to be left for more than two hours. Also grass clippings shall be blown into turf areas, never into mulched bed areas or tree rings as these are to be maintained free of grass clippings. Grass clippings at highly trafficked areas (i.e., tennis courts, clubhouse sidewalks, pool areas, walking trails, etc.) shall be blown off immediately after mowing and edging have taken place. **NO CLIPPINGS SHALL BE BLOWN DOWN CURB INLETS.**

7) **REPLACEMENT OF PLANT MATERIAL** – Trees and shrubs in a state of decline should immediately be brought to the attention of the DISTRICT. Dead or unsightly plant material shall be removed upon notification of the DISTRICT. CONTRACTOR shall be responsible for replacement if due to his negligence. New plant material shall be guaranteed for a period of one (1) year for trees and ninety (90) days for shrubs, ground cover and lawn after final acceptance or for the duration of the Contractor's contract, whichever is greater.

Reporting

Contractor shall provide to management a written report of work performed for each week with notification of any problem areas and a schedule for the upcoming month. The Contractor shall also report on any deficiencies or items needing attention relating to disease and insects or other afflictions. Contractor shall prescribe the treatment plan he is to follow to remedy such afflictions.

PART 2

FERTILIZATION

Contractor shall abide by all requirements in Ordinance No. 14-16 regarding the application of fertilizer within Hillsborough County.

NO PERSON SHALL APPLY FERTILIZERS CONTAINING NITROGEN AND/OR PHOSPHORUS TO TURF AND/OR LANDSCAPE PLANTS DURING ONE OR MORE OF THE FOLLOWING EVENTS: i) IF IT IS RAINING AT THE APPLICATION SITE, OR ii) WITHIN THE TIME PERIOD DURING WHICH A FLOOD WATCH OR WARNING, OR A TROPICAL STORM WATCH OR WARNING, OR A HURRICANE WATCH OR WARNING IS IN EFFECT FOR ANY PORTION OF HILLSBOROUGH COUNTY, ISSUED BY THE NATIONAL WEATHER SERVICE, OR iii) WITHIN 36 HOURS PRIOR TO A RAIN EVENT GREATER THAN OR EQUAL TO 2 INCHES IN A 24 HOUR PERIOD IS LIKELY.

All turf shall be fertilized according to the following IFAS Guidelines for a high maintenance level for central Florida turf: (per BMP guidelines and University of Florida IFAS Extension, central Florida is determined by anything south of a line running east-west from coast to coast through Ocala and north of a line between Tampa & Vero Beach.)

All Irrigated Bahia Sod:

- | | |
|---------|---|
| April | A complete fertilizer based on soil tests + PreM formulated for Bahia turf for warm- season weeds |
| October | A complete fertilizer based on soil tests + PreM formulated for Bahia turf for cold- season weeds |

All St. Augustine Sod:

- | | |
|-----------|---|
| February | A complete fertilizer based on soil tests + PreM |
| April | Nitrogen (soluble Nitrogen applied at 0.5 lbs. N/1000 SF + PreM |
| May | SRN (Slow Release Nitrogen applied at 1.0 lbs. N/1000 SF |
| September | SRN (Slow Release Nitrogen applied at 1.0 lbs. N/1000 SF |
| October | A complete fertilizer based on soil tests + PreM |

The contractor shall submit a fertilizer label to Field Inspection Coordinator for approval prior to application. At times environmental conditions may require additional applications of nutrients, augmenting the above fertilization programs to ensure that turf areas are kept uniformly GREEN, healthy and in top condition. It

shall be the responsibility of the contractor to determine specific needs and requirements and notify the resident project representative when these additional applications are needed.

Fertilizers containing iron shall be removed from all hard surfaces to avoid staining before the sprinklers are activated after application of the fertilizer. Any stains caused by a failure to do so will be the responsibility of the contractor to remove.

Soil test samples shall be taken by the contractor to determine the presence of Phosphorus and whether changes in the fertilizer pH or formulations are required. Should changes be of merit, the Contractor shall notify the District in writing prior to the implementation of such changes.

Fertilizer shall be applied in a uniform manner. If streaking of the turf occurs, correction will be required at no additional cost to owner. Fertilizer shall be swept/blown off of all hard surfaces onto lawns or beds in order to avoid staining. **IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO REMOVE ANY STAINS FROM ANY HARD SURFACES ON THE PROPERTY CAUSED BY THEIR NEGLIGENCE OF FERTILIZER APPLICATION.** Fertilizer shall not be applied within ten (10) feet from the landward extent of any surface water. Spreader deflector shields are required when applying fertilizer by use of any broadcast or rotary spreader. Deflector shields must be positioned such that fertilizer granules are deflected away from all impervious surfaces and surface waters.

SHRUB, TREE & GROUNDCOVER FERTILIZATION:

For purposes of bidding, All SHRUBS, GROUNDCOVERS and TREES shall be fertilized according to the following specifications:

3 Times a year – (March, May, October)

A complete fertilizer (formula will vary according to soil test results) at a rate of 4-6 lbs. N/1000 sq. ft./year. (A minimum 50% Nitrogen shall be in a slow-release form)

Fertilizer shall be applied by hand in a uniform manner, broadcast around the plants, but never in direct contact with stems or trunks. Fertilizer shall never be piled around plants. All fertilizer remaining on the leaves of the plants is to be brushed or blown off. **IT IS THE CONTRACTOR'S RESPONSIBILITY TO REPLACE ANY PLANT MATERIAL DAMAGED BY FERTILIZATION BURN DUE TO HIS NEGLIGENCE.**

PALM FERTILIZATION:

All Palms shall receive 1 ½ pounds of 8-2-12+4Mg with micronutrients per 100 SF of palm canopy four times per year (March, May, October & late November). The "2" should be reduced to "0" if a soil test indicates there is not a deficiency of Phosphorus in the soil. 100% of the N, K & Mg **MUST** be in slow-release form. All micronutrients must be in water soluble form. Fertilizer shall be broadcast evenly under the dripline of the canopy but must be kept at least 6" from the palm trunk.

The District requires that all fertilizer applied to all palms on the CDD property be 8-2-12+4Mg. The fertilizer label shall reflect that 100% of the N, K, Mg, and B sources be in slow-release or controlled-release form and all the Mn, Fe Zn & Cu sources be water soluble (generally these will be sulfates, except for Fe, which can be chelated with EDTA or DTPA). No source of N, K, Mg or B should be water-soluble. This will be considered an unacceptable fertilizer. The information below reflects the most effective sources for the seven critical elements in Florida landscape palm fertilizers:

Element Recommended Sources:*

N - Sulfur-coated urea, resin (or polymer)-coated urea or ammonium salts, urea-formaldehyde

P - Superphosphate, triple superphosphate, coated diammonium phosphate

K - Sulfur-coated potassium sulfate (may have additional polymer coating)

Mg - Kieserite (magnesium sulfate monohydrate) granules

Mn - Manganese sulfate

Fe - Iron sulfate, FeEDTA and/or FeDTPA

B - Granubor® (sodium borate)

*Based on data from Broschat (1991, 1996, 1997, 2008) and Broschat and Elliott (2005) Archival copy: for current recommendations see <http://edis.ifas.ufl.edu> or your local extension office.

This item will not be included in the contract amount and fertilizer shall not be billed equally on a monthly basis but invoiced the month after application. Contractor is required to provide proposals for each application and proceed once District approval has been executed.

CONTRACTOR shall provide the DISTRICT with PALM fertilizer analysis tags from the fertilizer in order to verify correct formulation and quantity prior to purchase. This is to allow time to verify nutrient sources for the macro and micronutrients ensuring they are in slow-release or water-soluble forms. Payment will not be made until the correct quantity and formulation has been verified and applied. CONTRACTOR must notify the DISTRICT five (5) working days in advance of the day the property is scheduled to be fertilized. Failure on the part of the CONTRACTOR to so notify the DISTRICT may result in the CONTRACTOR forfeiting any and all rights to payment for the applications made without notification.

PART 3

PEST CONTROL

Insects and Disease in Turf Insect and disease control spraying in turf shall be provided by the Contractor every month with additional spot treatment as needed. During the weekly inspections the Contractor is responsible for the identification and eradication/control of disease and insect damage including but not limited to: scale, mites, fungus, chinch bugs, grubs, nematodes, fire ants, mole crickets, etc. Contractor shall pay for chemicals. Please list all chemicals that you will include in your fertilizer applications in the space allocated for “formula” under the fertilization section in the bid form. Also include the cost of these chemicals as part of the fertilizer application. Any anticipated additional treatments shall be included in the Pest Control portion of the bid form.

Insects and Disease Control for Trees, Palms and Plants The Contractor is responsible for treatment of insects and diseases for all plants. The appropriate insecticide or fungicide will be applied in accordance with state and local regulations, and as weather and environmental conditions permit. Contractor shall pay for chemicals. There are several afflictions that may be detrimental to the health of many trees and palms. Contractor will be fully responsible in the treatment of such afflictions. At the CDD’s discretion, this may include the quarterly inoculation of all palms susceptible to Lethal Yellowing and/or Lethal Bronzing. The cost of these inoculations should be included as a separate line item in your Pest Control price. Contractor is to identify those species of palms susceptible and supply a list of species and quantities with proposal. Each susceptible palm shall receive quarterly injections. Each injection site/valve can be used only twice. The third quarterly injection requires a new valve and injection site. Contractor is asked to provide cost per injection (material & labor) multiplied by quantity of susceptible palms multiplied by four inoculations per year in bid form. **The CDD reserves the right to subcontract out any and all OTC Injection events. This will not be included in the Contract Amount.**

The Contractor is required to inspect all landscaped areas during each visit for indication of pest problems. When control is necessary, it is the responsibility of the Contractor to properly apply low toxicity and target-specific pesticide. If pesticides are necessary they will be applied on a spot treatment basis when wind drift is a threat.

Careful inspection of the property on each visit is crucial to maintaining a successful program. It is the Contractor’s full responsibility to ensure that the person inspecting the property is properly trained in recognizing the symptoms of both insect infestations and plant pathogen damage (funguses, bacteria, etc.). It is also the Contractor’s responsibility to treat these conditions in an expedient manner.

It shall also be the Contractor’s responsibility to furnish the resident project representative with a copy of the Pest Management Report (a copy of which is included), which he is to complete at every service as well as all certifications (including BMP Certifications) of all pesticide applicators. Contractor shall familiarize himself with all current regulations regarding the applications of pesticides and fertilizers.

If at any time the District should become aware of any pest problems it will be the Contractor’s responsibility to treat pest within five (5) working days of the date of notification.

FIRE ANT CONTROL

Contractor is required to inspect property each visit for evidence of fire ant mounds and immediately treat upon evidence of active mounds. In small areas control can be achieved by individual mound treatment. Active mounds in larger turf areas will require broadcast application of bait.

For informational purposes only, Contractor is asked to provide the cost for the annual application of Top Choice in all dark green areas designated as "CDD Maintained – with irrigation unless otherwise noted" on the Maintenance Exhibit. Do NOT include roadway medians in this price nor lake banks, trails or between ponds and conservation areas. It is limited to those landscaped areas under automated irrigation.

Pest Control will not be included as a standard line item in each monthly billing, but shall be invoiced as a separate line item the month after service is rendered.

Pest Control shall be included in the Contract Amount.

PART 4

IRRIGATION SYSTEM MONITORING AND MAINTENANCE

Irrigation System. The Contractor shall inspect and test the irrigation system components one (1) time per month. Areas shall include all the existing irrigation systems.

4. Lubricate and adjust mechanical components
5. Test back up programming support devices

B. Water Sources

1. Visual inspection of water source
2. Clean above ground strainers and filters

4. Test automatic protection devices

C. Irrigation Systems

1. Manual test and inspection of each irrigation zone
2. Clean and raise heads as necessary
3. Adjust arc pattern and distance for required coverage areas
4. Clean out irrigation valve boxes

D. Report

2. Irrigation start time
3. Maintenance items performed
4. General comment and recommendations

The above list is for routine maintenance and adjustment of the existing irrigation system components, locating and repairing or replacing automatic valves or control wires and irrigation controller or pump repairs as well as other larger scale repairs are to be considered additional items. Contractor shall provide a list of additional charges and pricing for such items other than routine maintenance as a separate price from this bid.

Routine irrigation maintenance is to be completed monthly. Each zone is to be turned on and operated for as long as necessary to verify proper operation. Each head, seal, nozzle, and strainer are to be inspected for adjustment and shall be aligned, packed, cleaned, and repaired as necessary. Shrubs, groundcovers and turf around sprinkler heads shall be trimmed to maintain maximum clearance at all times for the greatest

coverage. All below ground repairs including valves, pumps and wiring require an estimate for all such repairs. Upon written approval from Management, Contractor shall proceed. In the event of an emergency, Contractor shall make a diligent effort to contact, with the approximate price or estimate of repairs, Management, or their assign prior to making such repair.

Upon being awarded contract, Contractor shall have a period of thirty (30) days from date of commencement to perform a thorough audit of the entire irrigation system listing items that need repair/replacement in order for the system to operate properly. A separate audit may be provided by the Contractor listing those items that would improve the irrigation system. Any action taken regarding the Irrigation Audit will be at the Board of Supervisors' discretion.

After the thirty (30) day period has expired and for the duration of the contract, Contractor shall assume responsibility for any and all unreported maintenance deficiencies, including parts and labor, associated with the irrigation system of 2 inches or less, to include sprinkler heads (includes spray heads), nozzles, drip, main and delivery lines and any associated fittings. Said repairs shall be performed immediately. The District Manager shall be notified what day and time of the week the irrigation tech will be available servicing the community. The Contractor will keep detailed irrigations reports consisting of run times and correct operation of system. A copy of this report will be maintained by the Contractor and a copy delivered to the District Manager or his designee, along with the weekly report. At no time shall the Contractor leave the property knowing of the need for a repair and not reporting it.

Watering schedules shall meet all government regulations, and zone times will be adjusted depending on job conditions, climactic conditions and all watering restrictions of Lee County or any other governmental agencies. It is the responsibility of the Contractor to ensure the turf and plant material remains healthy. If the Contractor finds that the irrigation system cannot adequately cover the District in the allotted time, it will be the Contractor's responsibility to bring this to the attention of the District representative and apply for a variance. **Violations and/or fines imposed by any local or state agency will be deducted from the Contractor's monthly payment.**

Emergency service shall be available after normal working hours and an emergency telephone/pager number will be provided to Management or their assign.

Freeze Protection. The Contractor shall describe ability and cost per man-hour to provide freeze protection for both landscape material and pumps/wells.

PART 5

INSTALLATION OF MULCH

After prior approval by the Board of Supervisors, Contractor shall top dress all currently landscaped areas as shown on the maintenance map (landscaped beds & tree rings) with Medium Pine Bark Mulch, Shredded Hardwood Dark Brown Mulch or Pine Straw Mulch up to twice per year during the months of April and October. In doing so, Contractor shall ensure that all mulched areas are brought to a minimum depth of three (3) inches **after compaction**. Match mulch to what is currently present in landscape beds or tree rings.

Contractor is responsible for all necessary clean up related to this procedure.

Contractor agrees to provide reasonably neat and defined lines along edges of all mulched areas. This is done to facilitate mechanical edging of these areas. Additionally, Contractor shall properly trench all bed lines adjacent to concrete surfaces. Trenches shall be 3" deep and beveled. Mulched beds on slopes adjacent to turf shall also be trenched to a depth of 3" & beveled to reduce mulch washout. Mulch shall not be piled around tree trunks or bases of plants. Any mulch "volcanoes" around tree trunks shall be corrected immediately at no additional cost to Owner. Labor for trenching shall be included in the unit cost of the mulch.

Contractor agrees to ensure that mulch caught in plant material will be shaken or blown from plants, so that upon completion there is no plant material left covered with mulch.

If, after installation is complete and it is determined that additional mulch is required to attain the required 3" depth, sufficient mulch shall be supplied by Contractor at no additional cost to District.

This item will not be included in the contract amount and shall be invoiced separately the month after service is rendered. Contractor shall provide a price per cubic yard/bale and estimated quantities to be installed per top dressing (based on his own field measurements) and shall submit with bid.

The CDD reserves the right to subcontract out any and all mulching events.

PART 6

ANNUAL INSTALLATION

Planting of Annuals. After prior approval by the Board of Supervisors, Contractor shall replace approximately Two Thousand Five Hundred (TBD) annuals in 4.5” pots up to four (4) times per year in designated areas and maintain annuals to ensure a healthy appearance. The Contractor will have the type of annual to be installed pre-approved by the District or its representative in writing. Prior to replacement, selection and approval from the Board is required. An Annual Options Presentation for the entire year stipulating plant options and timing for each quarterly rotation shall be submitted to District shortly after execution of contract in order for the CDD or its representative to select annual choice(s). Annuals shall be hand watered at the time of installation. The Contractor will remove & replace dead or dying annuals before the appearance of such annuals could be reasonably described as an eyesore. If the beds are left bare prior to the next planting, the Contractor will keep such beds free of weeds at all times until the next planting rotation occurs. Timing shall be centered around a holiday rotation being planted no later than the end of November and rotate accordingly every three months. (Dec, Mar, Jun, Sep)

Annual installation price shall include the removal of all dead annuals prior to placing new plants, regular dead-heading, necessary soil adjustments, soil additives, fungicides and **monthly slow-release** nutritional requirements **at no additional cost to District.** Contractor shall replace at his expense any annual that dies, fails to thrive or is damaged by insects/disease. Contractor shall also include in the summer rotation (June) **at no additional cost to District,** a major renovation of all annual beds. A potting mix specifically blended for annuals shall be used at this time and shall be replenished as necessary prior at each changeout throughout the year. All annual beds shall be raised at least eight inches. Upon completion of annual flower installation, a 1’ layer of Pine Fines shall be spread throughout the entire annual bed. **All this shall be provided at no additional cost to the District.**

This item will not be included in the contract amount. Contractor shall provide a price per 4” annual to be installed and shall submit with bid. This work shall be invoiced separately in the month after service is rendered.

The CDD reserves the right to subcontract out any and all annual installation events.
